CHICAGO, ILL. November 24.—Sensitor Tillman, of South Carolina, passed through Chicago to-day on his way to south Haven. Mich When informed that the colored people of Chicago had protested against the delivery of a lecture here by him, he said:

"I am surprised that there should be any talk in this city of a negroup lising to prevent a lecture which is for the benefit of a hospital which has never yet closed its doors to one of the colored people to think that they can prevent a Senator of the United States from talking. They might as well try to stop President Roosevelt. I shall not change my lecture in the slightest degree. The subject is 'The Annexation of Cuba,' and this question is so interwoven with the negro proplem in this country that it will be impossible for me to avoid discussing the latter."
